<b>Product Name :</b> Demonstration of Inclined Plane Trolley	<b>Product Code :</b> LBNY-0004-101000340
	ryinstrumentindia.com
<b>Description :</b> It consists of inclined plate, base plate, trolley weight b used to do experiments, such as: to study the inertia of object, to study the relationship between the force cond inclined plane, and to study static friction, sliding frictio	f object, to demonstrate gravitat dition of object on the inclined pl

**Technical Specification :** 

Dimension (L\*W CM): 120\*10.5

experiment of law of conservation of mechanical energy.
