Product Name :
Magnetic Field Acting on Electric Current Experiment

Product Code :
LBNY-0004-101000351

Description :

It is mainly used to do experiments, such as: the magnetic field direction and the current direction are perpendicular to each other; the magnetic field direction and the current direction are parallel to each other; the movement of suspension electrifying conductor in magnetic field.

Technical Specification :

Dimension (L*W*H CM): 9.5*9*5
