

Email: sales@laboratoryinstrumentindia.com

Product Name:
Resistance Box

Product Code:

## **Description:**

It is used to verify Ohm's law of part circuit; used as known resistance inserted in the circuit to regulate current; used as additional resistance to enlarge measurement range of ammeter; used to measure unknown resistance; used to measure electromotive force and internal resistance of power supply and is the essential instrument in electrical experiment.

## **Technical Specification:**

Dimension (L\*W\*H CM): 16.6\*13.2\*7.8
