Product Name :
Demonstration Ohmmeter

Product Code :
LBNY-0004-101000391

Description :

It consists of pointer-type internal magnetic structure and measuring circuit, with fourteen grades measurement range. It is used as galvanometer in student teaching demonstration experiment and is used to measure micro direct current, direct voltage and direct resistance.

Technical Specification :

Dimension (L*W*H CM): 27.1*29.7*11.8
