**Product Name :**  
Demonstrator For Application of Optical Fiber

**Product Code :**  
LBNY-0004-101000419

**Description :**

It is a light guide demonstration device using optical beam transmission made of optical fiber as sound transmission and image transmitting media, combining photoelectric effect and electronic technology and using AC power.

**Technical Specification :**

Demonstrator For Application of Optical Fiber

**Laboratory Instrument India**
