

Email : sales@laboratoryinstrumentindia.com

Product Name :
Properties of Air

Product Code :
LBNY-0006-10100015

Description :

Products are mainly used to explore the characteristics of the air through the cold and hot air convection phenomenon, to explore the formation of wind through the air, the reaction force to explore the air powered car, through the instrument configuration of products can be combined with teaching and research and experiment of various atmospheric air related experiments.

Technical Specification :

Properties of Air

Laboratory Instrument India
