**Product Name :**  
Chemical Experiment Device for Magnetic Teac

**Product Code :**  
LBNY-0007-10100039

**Description :**

The product is composed of teaching board, magnetic block and chemical device. A series of "1 to 38" serial number. Demonstration board 38, for the production of white plastic plate with 3mm thickness, the size is 80 \* 45mm, the teach board back embedded two blocks with 4 \* 2mm magnets, each magnet surface magnetic induction intensity is less than 20GS; 38 kinds of chemical device schematic plan printed on the demonstration board, respectively.

**Technical Specification :**

Chemical Experiment Device for Magnetic Teac

**Laboratory Instrument India**
