Product Name :
Molecular Interval Experiment Device

Product Code :
LBNY-0007-10100043

Description :

The basic specifications are: high 200mm, inner diameter 48mm, and the diameter of the base is not less than 68mm. As a body shape, the capacity of 300ml. The transparent liquid filled cylinder is made of polystyrene.

Technical Specification :

Molecular Interval Experiment Device

Laboratory Instrument India
