Product Name :
Portal Ethylene Analyser

Product Code :
LBNY-0001-830031

Description :

Portal Ethylene Analyser

Technical Specification :

Monitor controlled atmosphere and storage environments to ensure ethylene levels do not exceed critical thresholds.

Flux and headspace analysis: Collect accurate ethylene emission levels across treatments of single fruits or small-volume samples with low ethylene emission rates.

Digital display

Measuring from 0-200ppm

Lower detection limit of 0.025ppm.
