Product Name :
Temperature and Humidity Data Logger

Product Code :
LBNY-0002-910003

Description :

Temperature and Humidity Data Logger

Technical Specification :

Temperature and humidity Data logger
Status Indication via Red/Yellow LED and Green LED
USB Interface for Setup and Data Download
User Programmable Alarm Thresholds for Relative Humidity and Temperature
Analysis software used to view graph for logging data
Multimode to start logging
Long battery life
12 hour data logging duration
Temperature range -30 to 50 °C
Humidity range 0 to 100% RH
Best with li-ion rechargeable Battery if not AAA or AA battery
With Microsoft Exile data output option.
Digital.
