**Product Name :**  
Anemometer

**Product Code :**  
LBNY-00010-1010009

**Description :**

It is a portable three-cup anemometer; the measuring section of instrument adopts SCM technology and can measure five parameters at the same time, such as: instantaneous wind speed, average wind speed, instantaneous wind scale, average wind scale and corresponding wave height.

**Technical Specification :**

Anemometer

**Laboratory Instrument India**
