**Product Name :**  
Small Optical Experiment Equipment Set

**Product Code :**  
LBNY-00012-10100088

**Description :**

The utility model is composed of a plane mirror, a lens, a small hole, an imaging screen, a light source, etc., and the utility model can accomplish the experiments of small hole imaging, plane mirror imaging, lens imaging, etc.

**Technical Specification :**

Small Optical Experiment Equipment Set

**Laboratory Instrument India**
