Product Name :
Micro TPW Portable White Light Turbidimeter

Product Code :
LBNY-00016-1100012

Description :

Autorange from 0 to 1100 NTU with accuracy of $\pm 2\%$ of reading or ± 0.01 NTU
Water-resistant, ABS-injection molded housing maintains laboratory performance in field operations
Resolution varies with turbidity range: 0.01 NTU for 0–99 NTU range, 0.1NTU for 100–999.9 NTU range, and 1 NTU for 1000–1100 NTU range
Light source: tungsten
Maximum sample size: 10mL
Other field-friendly features include push-button calibration, four-digit (seven-segment) LCD display, and long life—performs over 1000 tests on a single set of four “AAA” alkaline batteries
Response time: 14 seconds

Technical Specification :

Micro TPW Portable White Light Turbidimeter
