Product Name :
DC Power Supply (DC 0 to 30V Variable Dc)

Product Code :
LBNY-0002-620019

Description :

DC Power Supply (DC 0 to 30V Variable Dc)

Technical Specification :

It is a variable voltage DC power supply from 0 to 30V with maximum current capacity of 5A. It has visual indication for CC or CV mode of operation and has in built electronic overload protection on the output side and fuse protection in the input side. Good line and Load regulation makes it robust and reliable. Cabinet is duo combo of plastic and sheet metal and powered with 3 core mains cord to provide foolproof earthing. Two digital seven segment LED meters are fitted on the panel to monitor output volts and amperes.

DC Power Supply (DC 0 to 30V Variable Dc), DC Power Supply (DC 0 to 30V Variable Dc) Equipments, DC Power Supply (DC 0 to 30V Variable Dc) Tools, DC Power Supply (DC 0 to 30V Variable Dc) Tool Kits, DC Power Supply (DC 0 to 30V Variable Dc) Manufacturers, DC Power Supply (DC 0 to 30V Variable Dc) Suppliers from India, China, Kenya
