Product Name :
Contactor Circuits in Three Phase Systems Trainer with
Assessories

Product Code :
LBNY-0002-620021

Description :

Contactor Circuits in Three Phase Systems Trainer with Assessories

Technical Specification :

Automatically switch ON & OFF Motor based on water availability in the Water Tank
100% motor coil protection from over voltage, high current, dry run, over load and Lightning
Motor gets ON when power resume
The Controller will monitor both bore well and Overhead tank water simultaneously
Motor gets OFF when any one power supply cut off line
3 phase Power Supply, MCB, Fuses, Contactors, Digital Multimeter, Machines assessories, EST 2 equipment
Set

Contactor Circuits in Three Phase Systems Trainer, Contactor Circuits in Three Phase Systems Trainer
Equipments, Contactor Circuits in Three Phase Systems Trainer Tools, Contactor Circuits in Three Phase
Systems Trainer Tool Kits, Contactor Circuits in Three Phase Systems Trainer Manufacturers, Contactor Circuits
in Three Phase Systems Trainer Suppliers from India, China, Kenya
