Product Name :
HV Coveralls

Product Code :
LBNY-00017-11000308

Description :

HV garments are mainly composed of flash spun polyethylene, providing an ideal balance of protection, durability and comfort. Thanks to their nonwoven structure, they are permeable to both air and water vapor, yet repel water-based liquids and aerosols.

HV garments are mainly composed of flash spun polyethylene, providing an ideal balance of protection, durability and comfort.

Thanks to their nonwoven structure, they are permeable to both air and water vapor, yet repel water-based liquids and aerosols. They offer an excellent barrier against fine particles and fibers, are ultra-low linting and antistatically treated on the inside.

Collared coverall available in fluorescent orange with silver grey retroreflective bands for day and night visibility, available in sizes SM to 3X.

Robust yet lightweight.

Their bright fluorescent orange color background material combined with silver grey retroreflective material make them highly visible during the day as well as in the night (when exposed to a light source).

Mandarin collar, elasticated wrists and ankles as well as glued-in waist elastic.

Ample crotch area for freedom of movement.

Large, easy-to grasp zipper puller.

Stitched external seams.

Auto-lock zipper and zipper flap for increased protection.

Very low inward leakage thanks to optimized design.

Technical Specification :

HV Coveralls
