

Email : sales@laboratoryinstrumentindia.com

Product Name :
Chemical- and Flame-Resistant Coveralls

Product Code :
LBNY-00017-11000312

Description :

Lightweight and breathable CPC garments made with Gore fabric reduce overheating and fatigue while preventing liquid chemical splash penetration
Garments stitched with Gore thread
Fabrics are durable, flexible, tear and snag resistant, washable, and reusable
All seams are heat and pressure sealed with Gore-Seam tape to prevent liquid penetration
Gore membrane is a bicomponent PTFE membrane that prevents liquid penetration but allows a vapor permeation, allowing perspiration to evaporate and cool the wearer.
Coveralls
Feature two-way, heavy-duty, static-free zipper
Hook-and-loop closures on storm flap, collar, sleeves, and leg bottoms.
Double storm flap; stand-up collar; raglan sleeves.

Technical Specification :

Chemical- and Flame-Resistant Coveralls
