Product Name:

Chemical- and Flame-Resistant Coveralls

Product Code : LBNY-00017-11000312

Description:

Lightweight and breathable CPC garments made with Gore fabric reduce overheating and fatigue while preventing liquid chemical splash penetration

Garments stitched with Gore thread

Fabrics are durable, flexible, tear and snag resistant, washable, and reusable

All seams are heat and pressure sealed with Gore-Seam tape to prevent liquid penetration

Gore membrane is a bicomponent PTFE membrane that prevents liquid penetration but allows a vapor permeation, allowing perspiration to evaporate and cool the wearer.

Coveralls

Feature two-way, heavy-duty, static-free zipper

Hook-and-loop closures on storm flap, collar, sleeves, and leg bottoms.

Double storm flap; stand-up collar; raglan sleeves.

Technical Specification:

Chemical- and Flame-Resistant Coveralls
