## **Product Name:**

Laboratory Autoclave 18L capacity

Product Code: LBNY-0001-1000005

## **Description:**

Laboratory Autoclave 18L capacity

## **Technical Specification:**

Easy operation, safe and reliable.

The sealing ring is made of silicon rubber.

Two safety valves keep double safety (for timing control type).

It has self-adjustment function (for timing control type)

It is well sealed and effectively prevents steam leakage.

Over temperature & over pressure auto-protection.

Electric heating or gas heating can be used (for Dual fuel Type).

The sterilizer is provided with a power switch, user can control the operation easily.

Immersion type electric heating pipe, thermal efficiency is high, stainless steel material tube is durable to use. Steam-water inner circulation system: No steam discharge and the environment for sterilizing will be clean and dry.

Double groove pressure gauge, could clearly indicate, convenient observation, reliable performance.
