Product Name :

Versa Gown with Flexneck Technology, AAMI Level 2

Product Code :

LBNY-00017-11000363

Description :

Designed using clinician feedback and independent clinical testing
Provides nearly two-fold reduction in contamination of hand and wrist areas
Helps ensure instant compliance, even without training
Innovative design allows freedom of movement without compromising protection
The Versa Gown with Flex neck Technology offers AAMI Level 2 protection to reduce risk of cross-contamination among health professionals and patients. Patented Flex neck technology for fast and easy donning and removal. Flex neck closure also allows easy doffing that allows gown to swiftly yet gently tear away from the body preventing self-contamination.
Patented Flex neck technology allows fast and easy donning and removal while providing exceptional protection and comfort
Innovative Flex neck closure quickly and easily passes over the head to instantly provide complete coverage and eliminate the risk posed by untied gaping gowns that can slip and expose skin.

Technical Specification :
