Product Name :
Chemo-tested Versa Gown with Flex neck Technology

Product Code :
LBNY-00017-11000412

Description :

High quality infection control
Quick and easy donning and removal while maintaining exceptional protection and comfort
Poly-coated and made with thumb loop cuffs to prevent sleeves from riding up and to ensure complete wrist coverage under exam gloves
Design allows health care professionals to don protective apparel with a quick over-the-head motion eliminating the risk of untied gaping gowns that can slip and expose skin.
The Chemo-tested Versa Gown with Flex neck Technology provides AAMI Level 2 protection against cross-contamination for health professionals and patients.
Chemo-safe with patented Flex neck technology for fast and easy donning and removal.
Flex neck technology provides highly flexible gown closure.

Technical Specification :
