Product Name :

68-CFR Flame Retardant Coveralls with Hood

Product Code :

LBNY-00017-11000494

Description :

Protection: Flame retardant treated fabric with PVC barrier film offering wearers protection from liquid chemicals

Versatile: Good for most applications where there is the need for protection from chemical spray without compromising wearer protection in the event of a flash fire

Optimized body fit: Improves wearer comfort and safety

Highly visible: Bright red color to improve worker safety

Design: Elastic waist, wrists and ankles, double zip closure, double cuffs with knitted inner cuff, serged and taped seams, 2-piece hood

Offer protection from particulates and chemical sprays or splashes without compromising worker protection in the event of a flashfire. 68-CFR Flame Retardant Coveralls are manufactured from flame retardant and antistatic fabric. They are ideal for use in industries like oil and petrochemicals, petroleum distribution and processing, and utilities.

Applications: Oil and petrochemicals, petroleum distribution and processing, utilities.

Technical Specification :

68-CFR Flame Retardant Coveralls with Hood
