

Email : sales@laboratoryinstrumentindia.com

Product Name :
Chemical- and Flame-Resistant Jackets

Product Code :
LBNY-00017-11000529

Description :

All seams are heat and pressure sealed with Gore-Seam™ tape to prevent liquid penetration
Fabrics are durable, flexible, tear and snag resistant, washable, and reusable
Jackets
Heavy-duty zipper
Double storm flap; stand-up collar; raglan sleeves
Lightweight and breathable CPC garments made with Gore™ ChemSplash™ fabric reduce overheating and fatigue while preventing liquid chemical splash penetration
Garments stitched with Gore thread
Hook-and-loop closures on storm flap, collar, and sleeves
Gore membrane is a bicomponent PTFE membrane that prevents liquid penetration but allows a vapor permeation, allowing perspiration to evaporate and cool the wearer.
Sized to be worn over clothing.

Technical Specification :

Chemical- and Flame-Resistant Jackets
