Product Name :
Single Phase Induction Motor

Product Code :
LBNY-0002-620025

Description :

Single Phase Induction Motor

Technical Specification :

It is an asynchronous motor. 200V/110V/230V/240V AC works at 50/60 Hz frequency. 2 hp 1 phase motor price is low.

It has a start capacitor and run capacitor to provide zero starting torque during operation.

The single phase induction motor is easy to repair and maintain, used for drills, air conditioners, compressors, pumps, cranes, garage door opening and closing systems.

Frequency: 50HZ/60HZ, 1.5KW,

Voltage: 220V.

Single Phase Induction Motor, Single Phase Induction Motor Equipments, Single Phase Induction Motor Tools, Single Phase Induction Motor Tool Kits, Single Phase Induction Motor Manufacturers, Single Phase Induction Motor Suppliers from India, China, Kenya
