Product Name :

Transforming Technologies ESD Cleanroom Frock, White

Product Code :

LBNY-00017-11000923

Description :

ESD Cleanroom Frock protects the controlled environment from the number one source of contamination and static found in cleanrooms – people.

Transforming Technologies ESD Cleanroom Frock is engineered to meet up to a Class 1000 cleanroom demands for industries such as microelectronics, semi-conductors, disk drives, laser, and similar industries. The Cleanroom Frocks are made with a high-end static dissipative grid fabric for eliminating static on the wearer in cleanrooms and shielding static charges generated while moving.

Transforming Technologies ESD Cleanroom Frock protects the controlled environment from the number one source of contamination and static found in cleanrooms – people. Electrostatic charge is an invisible contaminant that has the potential to degrade or destroy both product and equipment, as well as attract unwanted particles. Controlling these charges on mobile operators with the Garment System throughout the controlled environment is essential to a productive manufacturing process.

The frock features a military collar, ESD knit cuffs, and YKK zipper closure with adjustment snaps at the neck.

Zipper closure with snaps for easy gowning

Seams sewn with conductive threads and grounding tape for reliable panel-to-panel electrical continuity

ESD Grid Fabric—99% Polyester / 1% Carbon

Raglan sleeves with ESD knit cuffs for body contact

Military collar

Sizes: XS-5XL

Product Circularity: Reusable / Launderable

Color: White / Navy / Light Blue.

Technical Specification :

Laboratory Instrument India
