**Product Name :** Ripple Tank

Product Code:

## **Description:**

Ripple Tank

## **Technical Specification:**

To illustrate important wave motions like rectilinear and circular motion.

This Ripple Tank is comprised of a molded frame with an acrylic window.

Scratch resistant supported by adjustable legs.

This dual purpose tank is a versatile apparatus allowing all types of waves and wave motion. With illuminator lamp and important accessories included, it forms a complete ready to use unit.

The unique design and size allows it to be used on an overhead projector as well.

Metal frame with an acrytic tray, four legs, a gently supplied for supporting a motor beam.

Ripples are produced by a small 1.5V to 4.5V d.c motor mounted on a plastic beam of 240mm length, two spherical dippers, barriers (one spherical two long and one short)
