**Product Name :**  
Laboratory Flumes and Channels

**Product Code :**  
LBNY-0005-1040001

**Description :**

New research flumes available as standard  
Laboratory Flumes and Channels for Hydraulic Teaching and Research Studies

Standard Flumes  
Special Flumes, Tanks and Basins  
Mono and Random Wave Makers  
Ancillary Equipment  
Sediment Transport Facilities.

**Technical Specification :**

**Instrumentation:**

Usually channels are of rectangular prismatic section. The dimensions of the working cross-section and length are the principal features which determine both the functional suitability and the cost of a channel.

This brochure presents the full range of channels/flumes available from, both teaching & research, standard & special.

There are also general comments about the design, flexibility & accuracy of flumes in order to assist those embarking on the specifying & purchase of flumes for advanced studies or research.
