**Product Name :**  
Electronic Injector Pump

**Product Code :**  
LBNY-0002-640005

**Description :**

Electronic Injector Pump

**Technical Specification :**

Fuel Pump is a portable unit for transferring Diesel fuel, fitted with a pump run by a 12 V or 24 V DC electric motor

With advantage of mall size, reliability and simple installation.

it is specially useful when fuel transferred or dispensed safely having only battery power on hand, as in construction sites, on boats and in agriculture

Voltage: 12 Volts, 24 Volts

Fuel Type: Diesel

Automation Grade: Semi-Automatic

Electronic Injector Pump, Electronic Injector Pump Equipments, Electronic Injector Pump Tools, Electronic Injector Pump Tool Kits, Electronic Injector Pump Manufacturers, Electronic Injector Pump Suppliers from India, China, Kenya
