Product Name :
Automatic Pendulum Impact Testing Machine With Digital

Product Code :
LBNY-0005-1490002

Description :

Features:

The test results can be obtained automatically after finishing test. Its excellence and advantage will be shown apparently in continuous impacting tests lab and abundant impacting tests manufacturers.
Fast and simple to change impact energy only by changing pendulum arms.
Reduced friction bearing shaft assembly and solid vibration-free base.
The instrument is controlled manually and semi-automatically and easy to operate.
Digital monitor allows test result through a pin-type printer.
Interchangeable anvils ensure constant striker center.

Technical Specification :

Automatic Pendulum Impact Testing Machine With Digital
