Product Name:

Space Rebar Cold Bending Test Machine

Product Code: LBNY-0005-1530001

Description:

Safe: specimen bending directly into sealed test table, safe to operate.

Dust-proof: unique dust resistant unit protects ball screw from oxide coating.

Two-way hydraulic cylinder enables fast loading, unloading and withdrawing.

Effortless: requiring only one operator, who clicks the buttons to perform tests.

Equipped with waste collecting cart, reduces working effort.

Small footprint saves space for testing.

One-step forming: this product bends specimen in one step during tests. Then applies side loads to form interference bend on the specimen to eliminate remaining deformation, accomplishing a bending angle of 180.

Technical Specification:
