**Product Name :**  
Anaerobic Reactors Apparatus

**Product Code :**  
LBNY-0005-1740002

**Description :**

**Features:**

- Simple change of reactor configurations
- Provision for sampling of liquids and gases
- Automatic pH control with two dosing pumps
- The reactors are made of glass so the contents are fully visible
- Provision for fitting user supplied instrumentation
- Very low back pressure on reactor from gas collector
- Accurate control of temperature to suit the bacteria
- Accurate and highly visual measurement of gas produced
- Optional settling tank
- Data logging system with software.

**Technical Specification :**

Anaerobic Reactors Apparatus

**Laboratory Instrument India**
