**Product Name :**  
Energy Control Strategy of Series-parallel Hybrid Power Vehicle

**Product Code :**  
LBNY-0006-2190002

**Description :**

Energy Control Strategy of Series-parallel Hybrid Power Vehicle

**Technical Specification :**

The training equipment is designed based on the Corolla series-parallel hybrid power system working management control principle, dynamically demonstrate the several working conditions: starting, driving at low speed, normal speed, full speed and reduced speed and stopping of series-parallel hybrid power, the equipment is applicable for the teaching demands on theories and maintenance training of series-parallel hybrid power system.
